

The Care Certificate Standards Self-Assessment Tool

What is the Care Certificate?

The Care Certificate is an identified set of standards that health and social care workers adhere to in their daily working life. Designed with the non-regulated workforce¹ in mind, the Care Certificate gives everyone the confidence that these workers have the same introductory skills, knowledge and behaviours to provide compassionate, safe and high quality care and support.

The Care Certificate:

- applies across health and social care;
- will equip workers with the fundamental skill they need to provide quality care; and
- gives a basis from which workers can further develop your knowledge and skills as their career progresses.

What are the standards?

The 15 standards in the Care Certificate are:

1. Understand your role
2. Your personal development
3. Duty of care
4. Equality and diversity
5. Work in a person centred way
6. Communication
7. Privacy and dignity
8. Fluids and nutrition
9. Awareness of mental health, dementia and learning disability
10. Safeguarding adults
11. Safeguarding Children
12. Basic Life Support
13. Health and Safety
14. Handling information
15. Infection prevention and control

Employers may want to use the self-assessment tool prior to health and social care workers commencing their induction. Induction can then be tailored, based on the workers self- assessment. The tool is not designed to be used as part of the selection process and can be used for both new starters and where the employer wishes to award the Care Certificate to existing staff or if necessary identify additional training needs.

Health and social care workers. Your employer has asked you to complete this self-assessment for the Care Certificate. Each of the standards is listed with a check list to allow you to rate your own knowledge and skills against the following scale:

- | | |
|-------------------------|--|
| Good | You have a good standard of skills and/ or knowledge. You use these skills and knowledge on a regular basis and feel confident in your ability. No refresher required. |
| Adequate | Your standard of skills and/ or knowledge meets the standard required. You may only use the skills and knowledge from time to time or you may not feel confident in your ability. You and your employer may agree that you need to refresh specific knowledge or skills from this selection. |
| Needs refreshing | You previously had this standard of skills and/or knowledge but it is no longer current or you have not used it in your work recently/regularly. You therefore no longer have the skills and/ or knowledge to meet the standard. A refresher is required. |
| New to me | Either you have never worked in a caring role previously or you haven't previously covered this topic. Training/development is required. |

Once you have rated yourself against each standard you will need to have a professional discussion with your assessor, employer or manager to see how you can refresh or develop new knowledge and skills in different areas. It is important that you are honest in your assessment of your current knowledge and skills against each of the Standards.

The checklist is just a tool and is not evidence that you are competent against the Care Certificate. The decision on whether you meet the Standards for the Care Certificate will be made by your manager, employer or assessor using the self-assessment, any other appropriate evidence and in line with the guidance set out for the Care Certificate. Officially this is called 'making a disclosure in the public interest' and may sometimes be referred to as 'escalating concerns.' You must report things that you feel are not right, are illegal or if anyone at work is neglecting their duties. This includes when someone's health and safety is in danger; damage to the environment; a criminal offence; that the company is not obeying the law (like not having the right insurance); or covering up wrongdoing.
