Our happy clients

At Social Care TV you are in great company. We work with hundreds of thousands of health and social care companies across the UK.

“ We purchased the Care Certificate bundle and several individual credits to support our staff working in front line health and social care for adult services. The courses have supported new and experienced staff to learn and understand more about their job and refresh skills and knowledge. The feedback has been positive, staff find the courses easy to understand and the videos are a great way to learn the information they need and the assessments at each stage of the course help to reinforce their learning. ”
